Fort Wayne, IN - Bowmar LLC announces with pleasure the appointment of our new Chief Executive Officer, Jeremy Nowland. Jeremy will assume the position on May 31, 2022.

Jeremy comes to Bowmar from Transdigm Data Design Corporation, where he was a Business Unit Manager. Jeremy has been in and around the aerospace sector for the vast majority of his career and brings lessons learned from UTC/ Sikorsky, L3/Harris (Electrodynamics), and Transdigm (Data Device). Jeremy has an MBA from Carnegie Mellon University and a BS in Mechanical Engineering from Brigham Young University.

Bix Benson, Chairman of the Board, said, "We conducted a thorough nationwide search and evaluated some excellent candidates from across the United States. Jeremy stood out as the kind of leader we were looking for to cultivate our growth. "His understanding of the products and design in specific aerospace and mechanical and avionics related components, and earlier career stop as a product manager are experiences in product developments/life cycle and program management that are directly relevant."

Bowmar, LLC is a manufacturer of complex precision critical function assemblies for the Aerospace and Defense markets. We offer full engineering support, including design to specification, design and build to print, reverse engineering, and full ATP and environmental testing inclusive of lighted NVIS.
